Accurate pH 7.

Model: CW520
Accurate pH 7.

Manufacturer: Control Wizard

Control Wizard Products is now introducing its Accurate pH 7 pH-moisture meter for soil growers. Until now, soil growers with the need to keep careful tabs on the pH of their soil have had to rely on either cheap and hokey junk meters or meters that are very expense and hard to get. This new meter is the best of both worlds. It is relatively inexpensive and is manufactured to high quality standards. Operation is simple. It works by utilizing the electronic ground field effect of the earth and two dissimilar metals. No batteries are required. 1 year limited warranty.Clean the electrodes and place the meter into the soil as shown. A pH reading is automatically displayed. Press the green button and a moisture reading is displayed. Clean the electrodes before each use. It works byilizing the electronic ground field effect of the earth and two dissimilar metals. No batteries are required. 1 year limited warranty.Work best in Blackjack Ultra Premium Potting Soil. By the way, be sure to use Blackjack Gigantamo Water Conditioner to condition your water before watering or feeding your plants. It's great stuff.
