6” Big Blue 2 bulbs 300-450 CFM 1500 mg/hr

Model: eco-5728

6” Big Blue 2 bulbs 300-450 CFM 1500 mg/hr

Manufacturer: Big Blue

6” Big Blue 2 bulbs 300-450 CFM 1500 mg/hr (eco-5728)Big Blue Ozonators
Blue Air Ozonators

Heavy duty ozonators, feature a highly polished stainless steel housing (amplifying ozone output) and multiple UV-C germicidal lamps, each is individually controlled for unrestricted removal of heat associated with multiple high wattage grow lights, allowing fully adjustable ozone output. This redundant fail-safe feature means you are never without odor control. Great for larger spaces and faster results in smaller spaces. These ozonators are not affected by high humidity levels and fit conveniently into your duct system with hanging eyelet supports and prepunctured mounting holes.The larger units work well with the most popular in-line fans.The dimensions are: 4”, 6", 8”, 10” and 12 inches in diameter X 20 inches in length.The BIG BLUES are assembled with corrosion resistant stainless steel.The BIG BLUE uses a germicidal UV-C lamp that produces the most effective odor killing ozone, ultraviolet technology has to offer.UV lamps continue to produce ozone for up to 14 to 18 months of continuous use. After that the light is on, but ozone levels are below optimal. Bulb replacement is easily accomplished, by anyone who can change a light bulb! Simply remove the lamp from its snap clips, separate the bulb from its’ power plug. Reverse the order for the installation of a new bulb. No need to return the BIG BLUE to the manufacturer for bulb replacement. BIG BLUE 4 inch is designed for small grow spaces. The stainless steel housing measures 20” X 4” in diameter. It contains a single UV-C lamp which produces over 750mg/hr of ozone. It is energy efficient using less wattage than a 40 watt bulb. This unit can use up to 465 cfm of fan. BIG BLUE 6 inch for 6 inch ducting! 2 ozone bulbs for twice the effectiveness of our popular 4 inch model. It will handle up to and beyond 600 cfm. BIG BLUE 8 inch is our most popular model. This polished stainless steel ozonator has 3 UV-C germicidal lamps. Each with its own high powered ballast. Adjustable ozone output; each bulb is individually controlled. This redundant fail-safe feature means you are never without odor control. Great for larger spaces and faster results in smaller spaces. This unit measures 20” X 8” in diameter. Recommended fan size of up to 800 cfm. The BIG BLUE 8 produces up to 2250 mg/hr.BIG BLUE 10 inch contains 4 bulbs with up to 5 different control settings. Can decontaminate up to 1500 sq. ft. 3000 mg/hr.BIG BLUE12 inch is designed for big tough jobs. 5 individually controlled bulbs. Ozone output of nearly 4000 mg/hr. Fan; 1200 cfm.

Blue Air Ozonators are heavy duty ozonators featuring a highly polished stainless steel housing (amplifying ozone output) and multiple UV-C germicidal lamps, each individually controlled for unrestricted removal of heat associated with multiple high wattage grow lights, allowing fully adjustable ozone output. This redundant fail-safe feature means you are never without odor control. Great for larger spaces and faster results in smaller spaces. These ozonators are not affected by high humidity levels and fit conveniently into your duct system with hanging eyelet supports and prepunctured mounting holes.
