Blowhole Water Pump 1100 GPH (4/CS)

Model: 729298
Blowhole Water Pump 1100 GPH (4/CS)

Manufacturer: -

Blowhole PumpsTired of those loud, whiny pumps? The BlowHoleTM runs silent and has three adjustable speeds.

Unique features:
3-Speed Adjustable Flow switch

The BlowHoleTM pumps by ReeFlo feature a unique 3-speed AdjustaFlow switch that allows you to instantly choose flow rates, pressure and watt draw from three different settings. Cut the flow and watt draw in half during the night or at feeding time and then instantly switch back when desired.

Very Low Heat Transfer
The BlowHoleTM pumps feature a FlowThru design that prevents the water from picking up motor heat while churning inside the pump head. The BlowHoleTM uses an aluminum cast motor which dissipates heat before it can reach the water.

Nearly Silent Operation
The BlowHoleTM pumps employ graphite motor bearings to ensure the quietest operation. You will have to put your ear near it to hear it.

Features:

Unique 3-speed AdjustaFlow switch
FlowThru Design
Nearly Silent operation
Less than 6”x6”x6” footprint
1”x 1” threaded fittings
2 Year replacement warranty

BH1450

Ideal for tanks from 100 to 150 gallons
