Model: 719278

DUTCH MASTER™ LIQUID LIGHT 1.32 GALLON (2/CASE)

Manufacturer: DutchMaster

Dutchmaster Liquid Light
LIQUID LIGHT 5L/1.32GAL (2/CS)
Liquid Light is designed to dramatically improve the way your plant processes your garden's light giving your plants the equivalent of up to 60% more usable light. Liquid Light works by supercharging the chloroplasts, tiny specialized cells in the leaves of your plant that process light and give them their lovely green color. These cells are the solar powered engines that are responsible for turning the light & CO2 into sugar. The more light these cellular powerhouses process, the more sugar they make. More plant sugar = more growth = more development and ultimately more yield!

Manufacturer's Product Information

2007 MSRP Each $199.9

Case Quantity2

Not for sale in California or Oregon

Price: $134.20
