Plant Food, Nutrients, Fertilizers & Supplements - Primary & Secondary, Essential & Minor Elements, Macronutrients, Micronutrients

Diamond Nectar - 6 Gallon

Model: eco-2831A
Diamond Nectar - 6 Gallon

Manufacturer: General Hydroponics

Diamond Nectar - 6 Gallon (eco-2831A)Diamond Nectar 6 gallon
Diamond Nectar 0-1-1: Despite the low level of nutrients found in natural soil-based environments, plant growth nevertheless occurs because humic acids channel available nutrients directly into nearby vegetation. By accelerating nutrient absorption at the root boundary zone where minerals enter the plant, humic acids optimize nutrient uptake in fast growing plants. Diamond Nectar applies the magic of humic acids to nutrient rich hydroponic environments by grabbing these nutrient minerals and transporting them into plant roots for faster growth and higher yields. Diamond Nectar supercharges your nutrients in order to optimize the health of your plants and the quality of your crops.

Diamond Nectar
General Hydroponics Diamond Nectar - Diamond Nectar applies the magic of humic acids to nutrient rich hydroponic environments by grabbing these nutrients and transporting them into plant roots for faster growth and higher yields.

SKU: GH1355
Weight: 58.8 lbs.
Package Dimensions: 11.7L x 10.1W x 16.6H
Suggested Retail: $184.00

Manufacturer's Product Information

MSRP $184
Price: $113.80
