Model: eco-5781F

CAP MLC-8X 8 Lights (120/240v, 120/240v style X/plug)

Manufacturer: -

CAP MLC-8X 8 Lights (120/240v, 120/240v style X/plug) (eco-5781F)Master Lighting Controllers
C.A.P. Master Lighting Controllers - The MLC-4XT
and MLC-4X Master Lighting Controllers are the best devices for controlling up to four 1000 watt HID lights from one time-clock or controller. You run 30 amp, 240 volt power into the MLC-4XT, and all of the outlets are controlled by one 120 volt trigger cable. You can plug the trigger cable into a standard 24 hour timer, environmental controller or one of the C.A.P. HLC series of garden and lighting protection devices. The MLC-4XT has four 240 volt style (NEMA 6-15) outlets, which your ballasts are plugged into. The MLC-4X has four 120 volt style (NEMA 5-15) outlets which allows for running your ballasts at 240 volts without having to change out your ballast power cords. 30 amps @ 240 volts. 3 year warranty.

The MLC-8XT and MLC-8X Master Lighting Controllers are the best devices for controlling up to eight 1000 watt HID lights from one time-clock or controller. You run 40 amp, 240 volt power into the MLC-8XT, and all of the outlets are controlled by one 120 volt trigger cable. You can plug the trigger cable into a standard 24 hour timer, environmental controller or one of the C.A.P. HLC series of garden and lighting protection devices. The MLC-8XT has eight 240 volt style (NEMA 6-15) outlets, which your ballasts are plugged into.The MLC-8X has eight 120 volt style (NEMA 5-15) outlets which allows for running your ballasts at 240 volts without having to change out your ballast power cords. 40 amps @ 240 volts. 3 year warranty.
