Reservoirs, etc. > Complete Hydroponic Systems & Parts - Ebb & Flow, Drip Feed, etc.

GHBB® POWER GROWER ECO® 13" X 13" X 15"

Model: 706635
GHBB® POWER GROWER ECO® 13" X 13" X 15"

Manufacturer: General Hydroponics

General Hydroponics Powergrower-Eco
POWER GROWER ECO
The new hexagonal PowerGrower Eco features a great new design. It is 15 inches across the top and 15 inches tall and consists of a single growing chamber at the top with integrated reservoir below. The unique hexagonal shape enables growers to place units close together when plants are small, and then separate them as the plants grow. A configuration of seven units placed together creates a high performance hydroponics growing area measuring 4 foot across. This configuration emulates a honeycomb design for space efficiency. This solid mass emulates a beehive in shape and spacing efficiency. This big step forward in hydroponic system design will delight experienced growers as well as those new to hydroponics.

Complete system includes:
• 5.7-gallon reservoir
• 3-gallon growing chamber
• Pumping column & support tube
• Drip ring
• 1/2" grommet
• Drain level tube
• Elite® 800 air pump
• 9L Clay Pebbles
• 3-part Flora Kit

Manufacturer's Product Information

2007 MSRP Each $64.95
Case Weight18.00 LB
Case Dimensions13. x 13. x 15. IN
Case Quantity1

Price: $55.28
