Cargo Boost 500mL

Model: NFCB500
Cargo Boost 500mL

Manufacturer: C.A.P. Custom Automated Products

Supplement (NFCB500)Nutrifield Cargo BoostCargo Boost is a revolutionary patented product that continuously delivers nutrients to your plants root zone to achieve rapid growth and larger yields as it is made up of small molecules that increase the nutrients ability to chelate. Unlike conventional chelation the small molecules work in a two step process. The first step is the creation of nano clusters through sequestration. This is followed by specific molecules in Cargo Boost attaching themselves to the sequestered elements like a container of cargo. The molecules then deliver the food to your plants root system, where Cargo Boost pushes the nutrient through the plants outer cell wall, before returning to the nutrient pool to begin the process again.

*Not for Sale or Use in the state of California
