Chameleon Cable Clips

Model: eco-4489
Chameleon Cable Clips

Manufacturer: -

Chameleon Cable Clips
Chameleon Cable Clips - Flexible cord sets are one of the most common, yet dangerous, products in use today. Too often they can lead to safety and fire risks because of overloading, poor connections, frayed conductors, load device failure, etc. When the 'Chameleon' detects excess heat (110+F), it changes colors from green to orange. The color-change is a visual warning that the electric cord is potentially HOT and hazardous. Pack includes: 2 round clips, 2 flat clips, 2 chameleons

Chameleon Cable Clips & Wraps
Flexible cord sets are one of the most common, yet dangerous, products in use today. Too often, they can lead to safety and fire risks because of overloading, poor connections, frayed conductors, load device failure, and more.
When the Chameleon detects excess heat (110+F), it changes colors from green to orange. The color-change is a visual warning that the electric cord is potentially hot and hazardous and should not be touched, or to be handled with care.
The Chameleon clips and wraps easily to: • Appliance cord sets• Workshop power tool cords• Extension and power cord sets• Portable heaters and generator cables• Computers, office machines, cord sets, etc.
Pack includes:

2 round clips
2 flat clips
2 chameleons
