Elements Bloom A 20 Liter

Model: NFEB5G
Elements Bloom A 20 Liter

Manufacturer: C.A.P. Custom Automated Products

Elements Bloom A ()Nutrifield Element Nutrient Grow & Bloom
2 Part + 2 Part Nutrient

The new Nutrifield Elements is a premium 4 part nutrient specifically optimized for Grow (2 parts) and Bloom (2 parts). Nutrifield Elements is the by-product of an extensive 2 year research program that was undertaken to improve the key stages in a plant's development. The key factors from this study helped identify early root development stimulants for Nutrifield Elements Grow to ensure an accelerated vegetative growth boost and an increase in cell division. While Nutrifield Elements Bloom ensures an impact on fruit and flower maturation, flavor and hardening.

The new formula will achieve optimum results with Nutrifield Hydro Clay, as well as rockwool, vermiculite and perlite. It has been scientifically formulated using chelated pharmaceutical grade salts. Nutrifield Elements contains each of the 16 key macro, secondary and micro elements required for plant nutrition and is enriched with amino acids, enzymes and natural plant stimulants to deliver high performance in your growing medium.
