LumenMax® 3 Double Ended HQI Reflector 250 Watt

Model: 904335
LumenMax® 3 Double Ended HQI Reflector 250 Watt

Manufacturer: Sun System / Sunlight Supply

LumenMax® 3Double Ended HQI Reflector

Accomodates 150 or 250 watt double ended metal halide (HQI) lamps
Rust proof & light weight aluminum housing
Square, symmetrical design for amazing output and uniformity
Reflector made from 95% reflective German aluminum

Durable & attractive powder coated finish
15 ft. detachable lamp cord with male plug
Compatible with wire hanging kits (sold separately)
Slotted for excellent ventilation
Includes 3/16& tempered UV protected glass

Use of tempered UV protected glass is mandatory, as glass in HQI lamps have no UV inhibitors

NEW & IMPROVED REFLECTOR MATERIAL

This brand new, unique aluminum, imported from Alanod in Germany, provides beneficial qualities which make it ideal for aquarium use. It is still 95% reflective, like the material we used in the past, but this textured material provides unmatched uniformity and diffusion characteristics. No other material comes close to eliminating hot spots.

This material is not Hammertone. It is also very easy to clean, simply wipe it down with warm water and a mild soap when necessary. We are proud to provide you with this upgrade at no additional cost!

Price: $149.65
