FloraNectar - Quart (12/cs) (eco-2837)Flora Nectar Fruit-n-Fusion Sweetener - 1 qt

FloraNectar Fruit-n-Fusion 0-0-1 contains all natural raw cane sugar, molasses, malt syrup, select plant based esters, L-amino acids, organic acids, polyflavonoids, vitamins and essential minerals.

This unique blend of ingredients helps your plants regulate enzymes that trigger specific reactions involved in maintaining optimal metabolism. This allows your plants to achieve a balance between respiration and photosynthesis in high intensity growing environments where the rate of respiration can sometimes exceed the rate of photosynthesis.

As a result, FloraNectar Fruit-n-Fusion ensures optimal metabolic rates during the flowering and fruiting phase when nitrogen levels have been reduced.

FloraNectar Fruit-n-Fusion also promotes a sturdier plant structure during the vegetative phase when high levels of nitrogen are present.

FloraNectar Fruit-n-Fusion fulfills the additional energy requirements of your plants throughout all phases of growth and during stressful times of transition.
