Ocean Mist 500mL

Model: NFOM500
Ocean Mist 500mL

Manufacturer: C.A.P. Custom Automated Products

Supplement (NFOM500)Nutrifield Ocean MistOcean Mist is a unique natural blend formulated to stimulate spontaneous plant growth. It is derived from fish proteins, high analysis kelp, polysaccharides, liquid vermicast, humic and fulvic acids. This unique mixture helps enzymes participate in cell metabolism and increases the production of carbohydrates (brix levels) to improve yields and reduce fruit rot. The structural polysaccharides in Ocean Mist also have the ability to improve the cell structure of the plant. This allows the plant to concentrate its energy on the flowering process. The outcome results in spontaneous growth and heavier yields. Ocean Mist is ideal to relieve stress affected plants and provides natural chelation as well as being an excellent stimulant for micro organism activity. It also improves fragrance and flavour of the final product.
