Frostbox Air Conditioner 1 Ton Mini-Split A/C w/ Quick Connect

Manufacturer: C.A.P. Custom Automated Products

Frostbox Air Conditioners
These world-class A/C's are totally Plug & Play! These units require no ducting, are easy-to-install, and feature an ultra-quiet outdoor compressor. Each unit comes pre-charged with R-410A*, enabling anyone to install them using a simple torque wrench – no licensed HVAC installer required. FrostBox AC's are extremely energy-efficient (rated as high as 20 SEER) to minimize power consumption and maximize savings for growers. Additionally, a day/night thermostat allows users to set the perfect temperature for day and night plant cycles.

These industrial-grade units are designed for the professional user. Plug & Play, these units are pre-charged with R-410A*, eliminating the need for an HVAC technician to perform the installation! Each unit features an Air Handler and an Outdoor Compressor with variable speed control, designed to minimize noise. These industrial-grade A/C's feature day/night thermostats allowing users to set the perfect temperature for day and night plant cycles. Additionally these units feature top and bottom plenums for easy duct installation. Optional Heppa and UV filters help to eliminate powdery mildew and other airborne pathogens.

Price: $1,691.92
