ORCA GROW FILM 54" x 25FT ROLL #5425 (25/CS)

Manufacturer: Orca Grow Films

ORCA GROW FILM 54" x 25FT ROLL #5425 (25/CS) (730155)Orca Grow Film

ORCA's patent pending white plastic microfiber structure effectively scatters light from highly reflective crystalline structures within the substrate. The same principal is found in snowflakes, where the geometry of ice crystals reflects light well. ORCA grow film is 94% reflective across the full visible spectrum and provides 99% diffusion. Light reflects evenly regardless of incident angle thus reducing hot spots. ORCA grow film is 100% light-tight, thermally reflecting, waterproof, and will not yellow from UV light. The film will help stop mold and algae growth, can be cleaned with household cleaners. At 11 mil thick Orca is extremely durable and puncture & tear resistant. Recyclable and Eco-Friendly, it contains no halogens, plasticizers or VOC's.
