Humboldt Nutrients Humboldt Roots 125 ml

Model: dl-HNHR400

Humboldt Nutrients Humboldt Roots 125 ml

Manufacturer: -

Humboldt Nutrients Humboldt Roots 125 ml (HNHR400)Humboldt Roots is a highly concentrated organic root stimulant that expands the root zone during the critical growth stage. The soul of every plant resides in the roots. Many gardeners neglect this fact and concentrate on the visual aspects of their plants. A large yield is directly related to a plant's metabolism rates, and plant metabolism rates are directly related to their root zones' uptake of nutrients and fertilizers. Humboldt Roots was specifically designed to expand the root zone, resulting in larger yields through increased metabolism. Guaranteed Analysis Available Phosphate (P205)….0.25% Soluble Potash (K20)…….0.25% Derived from: Ascophyllum nodosum seaweed, Potassium Humate ALSO CONTAINS NONPLANT FOOD INGREDIENTS: Humic Acid (derived from Lignite) Quillaja saponaria extract (derived from Soap Bark Tree) Amino Acids Directions: Always mix in non-chlorinated water. Soil: Mix 2 mL per gallon in non-chlorinated water. Use in conjunction with regular nutrient program throughout the vegetative stage and first three weeks of the bloom stage. Hydroponics: Mix 2 mL per gallon in non-chlorinated water. Use in conjunction with regular nutrient program throughout the vegetative stage and first three weeks of the bloom stage. Propagation: Mix 2 mL per gallon in non-chlorinated water. Soak rooting media with mixture prior to placing cuttings. Use throughout rearing stage. Suitable for aeroponic propagation.
