Manufacturer: Zenport

Replacement Cutting Blade for F7, F8 (Felco 7-3 Kit) (QF7-3)Zenport QF7-3 Replacement Cutting Blade for F7, F8

Zenport QF series pruners perform season after season, but years of hard use and repeated sharpening will eventually wear down even the hardest steel blade.

If your blade is chipped or cracked, your pruners no longer close all the way to the tip or you can hardly tell that there was once a wire-notch at the back of the blade, then it is time for a replacement blade. You won't believe the difference it makes.

Zenport QF no 7-3 Replacement Cutting Blade for F7, F8 hand pruners. Blades are compatible in performance and design with equivalent Swiss industry standard models.
