Hydrofarm 7" Humidity Dome (50/case)

Model: eco-4553

Hydrofarm 7" Humidity Dome (50/case)

Manufacturer: HydroFarm

Hydrofarm 7” Humidity Dome (50/case) (eco-4553)Hydrofarm 7" Dome

These domes fit directly onto the standard 10x20" cut kit trays to create a humid and warm environment good for cuttings and seed germination. Tall 7" dome give extra height for your taller cuttings. Adjustable vents allow for perfect humidity & temperature control.
Humidity Dome/Cover
Humidity Dome/Cover - Ready to fit any standard 10” x 20” propagation tray. If you are germinating seeds then use the 2” Humidity Dome to help retain heat and moisture to improve your success rates. The Altitude 7” Dome fits any standard 10” x 20” propagation tray and has the space to grow bigger and taller starts. The Hydrofarm 7” Humidity Dome regulates air flow with two adjustable vents. Made of thick heavy-duty, high grade plastic that maximizes light penetration and fits tightly to reduce moisture loss.

SKU: CK64081
Weight: 0.4 lbs.
Package Dimensions: 21.5L x 11.0W x 7.0H
Suggested Retail: $5.95
