TITAN CONTROLS® SELENE 2™ CO2 GENERATOR LP GAS - 8 BURNER

Model: 902514

TITAN CONTROLS® SELENE 2™ CO2 GENERATOR LP GAS - 8 BURNER

Manufacturer: Titan Controls

Titan Controls® Selene 2™ CO2 Generator LP Gas 8 BurnerThe use of Carbon Dioxide (CO2) has been scientifically proven to increase the productivity of plants. By elevating CO2 to the proper levels (1000 ppm to 2000 ppm), you can accelerate your plant growth from 35% to 50% and increase your yield. The Selene series CO2 generators have been built to meet the highest quality and safety standards in the market today. The ease of use and dependability are what makes Titan Controls a leader in hydroponic technology! Products created for our industry, by our industry.
The Selene 2 is for use in larger (over 300 sq. ft.) grow spaces. The unit comes with 8 burners installed and includes brass plugs to decrease CO2 production, if required. The Selene 2 comes with: 12 foot LP rated hose with POL fitting, 120 Volt A/C power adapter, #4 ceiling hook, steel chain to hang the Selene, hex wrench and a spare burner plug. All you need is a LP tank and you're good to go!

Eight (8) burners – Adjustable from 11,176 BTU's to 22,352 BTU's.

Electronic Spark Ignition (ESI) – No pilot light necessary.
Safe, reliable and easy to operate.
Saves money vs. bottled CO2.
Safety "tip-over" switch shuts down LP gas to Selene 2 in case the CO2 generator falls or gets knocked over.
Natural Gas (NG) conversion kits available from your Authorized dealer.
Only the highest quality components are used.
2 Amps/120 Volts/60 Hz.
3 year warranty.

Price: $415.27
