Phantom 1000W, 120/240V Dim.

Model: eco-4670

Phantom 1000W, 120/240V Dim.

Manufacturer: HydroFarm

Phantom 1000W, 120/240V Dim. (eco-4670)Phantom 1000W Digital Ballast, 120/240v Dimmable
Hydrofarm's Phantom Digital Ballast arrives on the market as the most rigorously tested ballast in the industry. The Phantom features silent operation, lightweight design, multiple placement options and the maximum lumen output around. We listened to your needs and learned. Now you can reap the benefit with this durable, premium digital ballast.

Tri-mode, push-button dimmable feature gives you the light you need in your specific growing situation.
Hot re-strike programming protects the lamp in the event of a power outage
Tested for compatibility with most brands of high intensity grow lamps
Dual resettable breakers - protects lamp and household circuits
Only ballast on the market designed for vertical operation for coolest running and optimum grow space
Drives the highest light output for maximum plant growth
Universal reflector adaptor and 8 ft heavy duty cord included
Unlike magnetic ballast, Phantom runs completely silent

Patented lock & seal BAREF lamp cord installed
Internal RF protection
Triple surface aluminum fins - most efficient cooling in its class
Internal Resin coating protects components for long life

SKU: PHE1THD
Weight: 16.4 lbs.
Package Dimensions: 14.5L x 9.8W x 3.8H
Suggested Retail: $399.95
