Powerhouse™ 1000 W. Convertible

Model: eco-4480
Powerhouse™ 1000 W. Convertible

Manufacturer: HydroFarm

Powerhouse™ 1000 W. Convertible (eco-4480)Powerhouse 1000W 120/240v Convertible (HPS/MH) Ballast
Powerhouse Remote Ballast
Use halide for growing and sodium for flowering; all in the same system! Hydrofarm's Powerhouse convertible ballasts feature engineered transformers made to the exacting American National Standards Institute specifications. They are designed to drive either halide or sodium bulbs properly with separate wire leads. They are marked according to UL standards for use with either bulb. We pair this engineered unit with our heavy duty multi-pole switch for the ultimate in safety and reliability - the convertibles you can count on!

Transformers engineered to the exacting American National Standards Institute (ANSI) specifications

Designed to drive either halide or sodium bulbs properly with separate wire leads

8 year warranty on ballast electrical components

Ballast Size: 11.5" (13.5" w/handle) x 7.5" x 8.5"

The Powerhouse is packed with features which make it the most advanced HID ballast enclosure on the market. With its durable all-aluminum exterior construction and its offset high/low component orientation, it runs quieter and cooler than any other ballast we have ever made. Cool components mean higher performance and longer life, which Hydrofarm guarantees with an 8 year warranty - the longest in the industry. All System Cord Set sold separately.

Every PowerhouseTM ballast includes:

Dual Voltage System
Ballast enclosure with 8 ft. grounded 120 V. power cord
Instructions, and lighting recommendations

SKU: PH57370
Weight: 40.2 lbs.
Package Dimensions: 16.2L x 10.9W x 9.5H
Suggested Retail: $320.00
