Pur Gro GroBot Pluggable Relay

Model: PGPR
Pur Gro GroBot Pluggable Relay

Manufacturer: C.A.P. Custom Automated Products

For GroBot Evolution
Pluggable Relay ONLY

About the system:
Tired of being tied down at all times to your grow or greenhouse? PurGro has just solution that you need, the PurGro GroBot Evolution. For far less than it would cost to buy separate devices, you can have the GroBot Evolution monitor and control your entire room through any Internet-capable device. Just prune your plants and refill the pump rack when needed - the Bot's got the rest
of it handled.

Most technologically advanced CCG system in the world, hands down!
Runs all aspects of your grow room right down to mixing and injecting the nutrients.
No extras to purchase - comes complete and ready to go, all sensors included.
All self-contained -- no software to load, no computer to buy.
Has it's own internal Web server and WiFi hotspot for easy, "Zero Click" setup.
All aerospace-grade parts, conformally coated for high humidity.
20 year-rated internal battery power in case of a power failure.
Fast reacting, highly accurate, aerospace-grade sensors. Responds in seconds, not minutes.
Easier to set up than Facebook, simple Web interface and instructions on every page.
Removable three liter dosing containers are dishwasher safe.

Price: $99.95
