Orchid Champion
ORCHID CHAMPION 4LT (SO)
Orchid Champion - is a containerized media treatment which aids in the cleansing and expulsion of dead matter. Should be used with all watering procedures - it is compatible with all fertilization programs and h202. Experts agree that clean systems may help avert the development of root desease, a leading contributor of orchid illness. Clean systems foster healthy plants with low stress. Try the "Champion's Secret" - Orchid Champion.
