Model: 746064

SNS 311 Plant and Vegetable Wash 16oz (10/Cs)

Manufacturer: -

SNS 311 Plant and Vegetable Wash
What is it? Think of SNS 311 as immediate medicine for your plants or (First Aid Kit). Little spritz' may help a lot of conditions.
SNS 311 is made with Ascorbic Acid (vitamin C), Sodium Bicarbonate (Baking Soda), Potassium Bicarbonate (kalicinite) and Quillaja Sopanin (Soap Bark) a botanical surfactant.

As a Plant Wash it may:

Reduce oxidative stress, reduce ozone issues i.e. Brown tips, Brown scaring and leaf curling
Remove pesticide oils
Remove fungicide oils
Reduce the odor from botanical pesticides and fungicides
Reduce insect damage, by reducing stress
Reduce fungus and bacterial damage, by reducing stress and washing off the fungus and bacteria
May reduce fungus and bacteria by reducing their ability to adhere to the plant
May increase the amount of fruit
May increase fruit and leaf size
Current testing has shown significant reduction in the treatment of Scales
1 ml of SNS 311 will eliminate 1.5 ppm of chlorine in 1 gallon of water and buffer the water to 6 pH
May reduce odors, if your plant smells like Rosemary or mildew a little spray can reduce the odor

May be used every day as a maintenance plant wash. You will notice your plant looking brighter, even glowing and smelling fresher.

As a Vegetable and Fruit Wash it may:

Wash off pesticides and other contaminants
Wash off bacteria and fungus
Reduce the ability of bacteria and fungus from adhering to the vegetables and fruit
Increase shelf life of vegetables and fruits due to reduced bacteria and fungus

Price: $14.09
