## 15' 16/3 600V Male Lock & Seal Cord UL

Model: hf-CS53506

15' 16/3 600V Male Lock & Seal Cord UL

Manufacturer: HydroFarm

Hydrofarm 15' 16/3 600V Male Lock & Seal Cord UL (CS53506) This 16/3 600V Male Lock & Seal receptacle replaces the male end of a cordset and attaches that cordset to a BAREF, female Lock & Seal receptacle. Male ends of cordsets may occasionally suffer damage from arcing or fried cords. Also, DIY grow room constructors will find this part essential for wiring a new cordset into an existing reflector, or connecting a Hydrofarm-branded ballast to a non-Hydrofarm reflector. The additional 15 feet of cordlength multiplies the options for your setup and wiring.

We offer a full range of power supply cords as well as adapters to switch from Hydrofarm ballasts to other brands of reflectors, or from Hydrofarm reflectors to other brands of ballasts. We also offer extension cords for your convenience, but keep in mind that some high intensity light systems may not work at long lamp cord lengths due to ignitor range restrictions. If you have any questions, please consult your sales representative.
