T5 Fluorescent Light System.

Hydrofarm's newest T5 System delivers performance, flexibility and high lumen output in any growing environment. These systems allow you to choose multiple hanging configurations to meet your garden's design. They combine German specular aluminum with energy-efficient/high-output T5 bulbs and put out double the light energy of normal fluorescent systems.

Dual On/Off switches allow you to control the amount of lumens as needed (6 and 8 tube models only)
