

Reflective / Black & White Films,

Mylar, Clips, Tabs, Zipper Doorways

4' X 50' ROLL BLOCK-IR, BLOCKS IR, THERMAL AND RADIANT HEAT, 2 LAYERS PLUS INSULATION

Model: BIR-50

4' X 50' ROLL BLOCK-IR, BLOCKS IR, THERMAL AND RADIANT HEAT, 2 LAYERS PLUS INSULATION

Manufacturer: C.A.P. Custom Automated Products

4' x 50' Roll (BIR-50) BLOCK-IR INFRA-RED BARRIER A revolutionary new security product, Block-IR is made from NASA developed Infra-Red blocking technology. The two outer layers of Block-IR material reduce thermal imaging heat signatures by 97%. Thin poly shielding products are inferior. Each layer of Block-IR material is bonded to a durable layer of polyurethane for strength. An inner layer of insulation prevents conductive heat flow. An additional layer of polyurethane gives Block-IR high reliability and strength. Completely line any space with Block-IR for a 97% reduction in thermal imaging. Block-IR also blocks thermal and radiant heat. Foil tape is required for proper installation. Block-IR Rolls are 4 ft. wide.
