## 48" Aqua Flora T5 HO Lamp

Model: 531090

48" Aqua Flora T5 HO Lamp

Manufacturer: Giesemann Lighttechnik

D and D Giesemann

Aqua Flora T5 HO Lamps

This lamp is specially designed for freshwater use but can also be used for color enhancing of saltwater coral tanks. It will bring out the blue and red colors of fish and coral and enhance plant growth in freshwater tanks. These lamps can be used in combinations. We recommend the midday 6000K to be used in conjunction with the aqua flora for freshwater. For saltwater you can use the aqua blue in conjunction with the actinic plus to achieve a deeper blue.

**Price: \$22.38**
