6" Cool Tube

Model: hf-RFCOOL6

6" Cool Tube

Manufacturer: HydroFarm

Hydrofarm 6" Cool Tube (RFCOOL6) The quality construction features European aluminum interior reflector, for directing light more precisely over a growing area. The securely-mounted 5KV mogul socket is completely prewired inside a protective junction box. The multi-point hanging system allows the unit to be hung horizontally or vertically for different growing applications. Now included is the patented Lock and Seal 15' heavy duty lamp cord, which allows you to conveniently plug into any Hydrofarm or Xtrasun ballast.

Features

6" or 8" (RFCOOL8) diameter by 19" long accommodates most lamp types up to 1000W

Superior packaging protects unit during shipping and handling

Internal and external reflectors included

Highest quality European aluminum

15' 600V cord and mogul socket included; easily attaches to any Hydrofarm ballast

The most compact and effective way to get bright light over, or in your growing area

Streamlined design allows cooling airflow to move unimpeded, keeping growing area temperatures lower and allowing you to position your lamp very close to your plants

Can hang vertically down into the plant canopy and is ideal for enclosed growth chambers

REFLECTOR SIZE: 6" diameter, 19" L

UNPACKAGED DIMENSIONS INCLUDING FLANGES: 8" diameter, 22-1/8" L

Accepts: Sodium 400, 430, 600, 1000W - Halide 400, 600, 1000W

Manufacturer's Product Information

MSRP each \$94.95

UPC638104010757

Dimensions 11 x 11 x 22.44

Case Quantity 1

Price: \$62.89
