6" Max-Pro Series, 420 CFM

Manufacturer: CF Group

The Max-Fan family has been designed to be the smallest, lightest and most energy efficient fan of its kind. With the current cost of electricity the Max-Fan can save hundreds of dollars every year. Even more efficient and stronger than the original Max-Fan design, the Max-Fan Pro Series has a much more robust housing due to the fiberglass reinforced plastic compounds that meet all of the UL and CSA requirements.
