Accurate pH 8.

Model: CW525

Accurate pH 8.

Manufacturer: -

Accurate pH 8 Professional pH and Moisture Meter with 12" Probe. Now You can check soil pH at multiple depths!! The probe is 12" long for extra large planters. Operation is simple. Clean the electrodes and place the meter into the soil. A pH reading is automatically displayed. Press the white button and a moisture reading is displayed. Clean the electrodes before each use. It works by utilizing the electronic ground field effect of the earth and two dissimilar metals. No batteries are required.
