## Active Aqua 10" Carbon Block Filter

Model: eco-2383

Active Aqua 10" Carbon Block Filter

Manufacturer: HydroFarm

10" Carbon Block Filter

Even a small amount of chlorine can destroy your RO membrane. This carbon block filter removes chlorine before it can do any damage. Rated for approx. 3,750 gallons of water at 2 ppm chlorine. Great for removal of VOCs (volatile organic compounds), herbicides, pesticides, and other contaminants. Works with residential and commercial water purification systems, both for tanks and other applications.

SKU: AARO610

**Price: \$9.71**
