Active Aqua Chiller, refrigeration unit 1/2 HP

Model: hf-AACH50

Active Aqua Chiller, refrigeration unit 1/2 HP

Manufacturer: HydroFarm

Active Aqua's freon-free chillers are environmentally friendly (they use R134a refrigerant) and are ideal for keeping the nutrient solution in your reservoir at the perfect temperature. Each unit has a user-friendly temperature system, allowing you to control your desired temperature range as needed.

Features

Large refrigeration capacity (recommended volume 52-132 gal/200-500 L)

Anti-corrosive pure titanium evaporator for both fresh and salt water

Rate of flow: 1/4 HP (350-850 GPH/1320-3220 L/hour)

Recommended pumps: AAPW550 or AAPW800

Tubing size: 1/2" (HGTB50), 3/4" (HGTB75), 1" (HGTB100)

Unit Dimensions: 18.7"L x 14.1"W x 19.3"H

For cooling capability, please refer to the performance chart found in the product information tab.

Please note that the starting ambient temperature of your solution will always affect the duration of the initial chilling process.

Price: \$623.67
