100% Natural Organic Fertilizer

A finely-tuned blend of select natural-organic nutrients with 8 strains of beneficial Mycorrhizae and Humic Acid, all specifically formulated for vigorous vegetative growth during all phases of plant development. A banquet of plant nutrients with quick to slow release availability. This formulation doubles as both an excellent grow and a general purpose fertilizer that will sustain lush growth and abundant flowering for all indoor and outdoor leafing, flowering, and fruiting plants. A single application will feed most plants for 12-16 weeks.
