Aquallumination AI NANO SOL BLUE W/ POWER SUPPLY

Model: 534055

Aquallumination AI NANO SOL BLUE W/ POWER SUPPLY

Manufacturer: -

Aquallumination Nano SOL

Based on the platform of the popular AI Sol, the Nano Sol is designed for spotlighting applications within large tanks, standalone for Nano tanks or a variety of other unique user defined solutions. Utilizing the modular platform design of the AI Sol line, the Nano Sol can be interconnected with multiple Sol or Nano Sol units and be managed by a common control unit or act as a standalone module.

Cree XP Series LED's with 50,000 hour life, industry leading optics that provide penetrating light with great coverage, and great coral growth characteristics make the Nano Sol the best choice for Nano, numerous specialty applications, or almost any application you can imagine. The Nano Sol is controlled by the AI Sol Control module (sold separately) as well as third party controllers (GHl Profilux and Digital Aquatics Reefkeeper).

Dimensions: 5.4"L x 5.4"W x 2.4"H

35 watt power consumption at peak intensity

Optional tank mount kit(s) available

MSRP: \$365.00

Price: \$298.99
