Aquallumination AI SOL WHITE W/ POWER SUPPLY

Model: 534005

Aquallumination AI SOL WHITE W/ POWER SUPPLY

Manufacturer: Sun System / Sunlight Supply

Aquallumination SOLAt Sunlight Supply, we aim only to bring the highest quality products to our customers. As such, we've been extremely careful before entering the exciting world of LED lighting. With numerous products on the market, we promise only to bring you the best. We've looked long and hard at LED technology, put the competitors up to the test, and we've found a winner. Aqua Illumination (AI) provides the highest quality light, incredible design, and the best overall performance of any LED light around.

The AI Sol is the class leader in LED lighting technology. It is designed and assembled in the United States, the ability to control light levels like no other system, is a modular design that allows for intelligent expansion, and the most effective PAR levels in deep tanks.

Cree XP Series LED's provide the horsepower to drive effective growth of both SPS and LPS corals. Full control allows for 16 unique user defined set points, or utilize the built in solar cycle to provide levels from full sun during the day to moonlight applications at night. The Sol is controlled by the AI Sol Control module (sold separately) as well as third party controllers (GHL Profilux and Digital Aquatics Reefkeeper).

Dimensions: 11.9"L x 5.4"W x H 2.4"H

75 watt power consumption at peak intensity

Optional tank mount kit(s) available

MSRP: \$545.50

Price: \$407.96
