

Autopilot High Power HID Controller, 8000W (120/240V), 60A

Model: hf-APCL8DX

Autopilot High Power HID Controller, 8000W (120/240V), 60A

Manufacturer: HydroFarm

Control up to eight lights from one timer or controller device. 240V power is wired directly into the eight outlet timer box, and all of the outlets are controlled by one detachable 120V trigger cable. Rated for 60 amps at 120/240 with eight 120/240V X-style receptacles. The light controller is backed by a hassle free 3 year warranty. APCL8DX has eight 120/240 volt style outlets which allow running your ballasts at 120/240 volts without having to change out your ballast power cords.

8000 Watt, 8 light controller
Premium quality industrial grade relay
X-style outlets allow 120V or 240V ballast operation
60 Amp maximum (30 amps x 2 relays)
Attached 120V trigger cable
Upgraded terminal blocks

Price: \$140.58
