B-52 Fertilizer Booster (4 Liter)

Model: FE696

B-52 Fertilizer Booster (4 Liter)

Manufacturer: Advanced Nutrients

Ever taken B Complex vitamins to ease stress and put yourself back on track? Plants have the same reaction to the B vitamin family! That's why Advanced Nutrients formulated B-52 Fertilizer Booster.

B-52 gives your plants a boost of energy by raising their metabolism. It helps overcome stressful growing conditions with increased nutrient uptake - a byproduct of naturally occurring hormones and vitamins. Less stress means more growth and larger harvests.

B-52's pure pharmaceutical grade vitamins and other ingredients strengthen the cellular processes and give extra protection to hydroponics seedlings, transplants and clones. Although super concentrated, B-52 is safe to use from plant seedling to maturity.
