Model: BCSD5G

BC SUGAR DADDY 20 Liter / 5 Gallon

Manufacturer: C.A.P. Custom Automated Products

BC SUGAR DADDY 20 Liter / 5 Gallon (BCSD5G) SUGAR DADDY
The unique combinations of ingredients in Sugar Daddy (0-0-0) are vital for all stages of plant growth and development. During the seedling stage Sugar Daddy rapidly accelerates sprout growth and prepares plants for transplanting. During the vegetative stage, Sugar Daddy promotes strong plant structure which is a critical precursor to final yield success. Sugar Daddy fosters healthy stage progression by limiting detrimental transition related stressors. Further, the lower nitrogen levels often found in flowering stage fertilizers are overcome by the use of Sugar Daddy as carbohydrate, protein, and fatty acid synthesis help achieve vigorous growth rates.
