Big Boy Carbon Filter

Model: hf-HLCCBF

Big Boy Carbon Filter

Manufacturer: Hydro-Logic

Hydro-Logic Big Boy Carbon Filter (HLCCBF) Keep your air fresh, your equipment in tip top shape, and your grow room at its best by making the commitment to exchange your filters. This carbon filter works with the Big Boy water filtration system and slips in easily to replace the one that came with your unit or additional replacements along the way.

Why change filters?

Prevent dust, dirt, and other airborne particles from clogging up the system, which can slow down how it operates

Provide fresh and filtered air to your plants, ensuring that there are no distractions from the growing process

Track what exactly is infiltrating your air within the grow room by seeing what's on the filter
