Big Boy Pleated Cleanable Sediment Filter

Model: hf-HLBBPSF

Big Boy Pleated Cleanable Sediment Filter

Manufacturer: Hydro-Logic

Hydro-Logic Big Boy Pleated Cleanable Sediment Filter (HLBBPSF) Keep your water fresh, your equipment in tip top shape, and your grow room at its best. This ultra-high capacity cleanable sediment filter removes 90% of sediment. Filter capacity of 25,000 gallons. Once this filter begins to show some wear, refresh it with a gentle cleaning with a brush or hand wash to get through all of the individual pleats, where particles and dirt like to cluster.

Why use filters?

Prevent dust, dirt, and other particles from clogging up the system, which can slow down how it operates

Provide fresh and filtered water to your home or garden

Track what exactly is infiltrating your water by seeing what's on the filter
