BioMarine Qt.

Model: hf-GH5352

BioMarine Qt.

Manufacturer: General Hydroponics

General Organics BioMarine Qt. (GH5352) BioMarine is an enzymatically digested fish protein that naturally enhances soil and boosts plant growth. This fish-based fertilizer encourages beneficial microbes for better roots, stems, foliage, flowers, and fruits. A superior natural source of plant nutrition, BioMarine suits all types of plants during all phases of growth, from seedling through harvest.

General Organics provides gardeners with a complete line of superior organic plant foods and supplements that combine the time-tested materials of traditional gardening with the ecological and efficient methods of the future. Each product in the "GO" line enables you to enrich your garden, your life, and the planet. General Organics foundation rests upon a deep commitment to provide simple, sustainable and innovative products with unsurpassed quality.
