

## BIOWEED GALLON (4/CASE)

Model: 726834

BIOWEED GALLON (4/CASE)

Manufacturer: General Hydroponics

General Hydroponics Bio Weed - 0.2-0-0.3

Seaweed is packed with nutrition that we make accessible to your plants. BioWeed builds healthy plants and contributes to dark green leaves and lush growth. It also builds soil composition. Enhancing the soil, instead of just diminishing it is a principle in organic farming that is very important to us. The General Organics line does that using sustainable, renewable, natural, sources like seaweeds.

MSRP: \$49.98

**Price: \$39.60**
