CNS17 BLOOM 2.5 GAL (2/CASE)

CNS17 is an element rich plant food which is ideal for producing consumable goods. CNS17 is ideally suited to a wide range of vegetable, flower and fruiting crops grown in hydroponics or soil. CNS17 combines high levels of calcium with sulfates and phosphates producing a mixture that provides a guaranteed complete spectrum of plant nutrients. Additionally, due to the molecular composition of CNS17 in dilution with water, the organic structures hydrolyze to provide an energy source for beneficial microbes in solution. CNS17 contains chelates which protect ions such as iron, manganese and zinc which can improve plant availability under a range of conditions.
