CAP REG-2 Dual Tank CO2 Regulator

Model: eco-5796

CAP REG-2 Dual Tank CO2 Regulator

Manufacturer: -

CAP REG-2 Dual Tank CO2 Regulator (eco-5796)CO2 Regulators

C.A.P. CO2 Regulators - The C.A.P. CO2 Regulator/
Emitter will allow you to maintain ideal CO2 levels for
optimum growth. It features an accurate, easy to adjust
CO2 flow meter, a pre-set regulator that never needs
adjusting and a solenoid valve. Each unit also comes with
the tubing needed to disperse the CO2 evenly throughout
your room by attaching the tubing to the back of an
oscillating fan. The flow rate is adjustable from .5 - 15 Cubic
Feet Per Hour. If you are using this without a digital CO2
controller, you will need to use a timer. A dual tank regulator
is also available for running (2) CO2 tanks at the same time,
doubling the time between refills!
