Carbo Max 300 g

Model: hf-GTCM60100

Carbo Max 300 g

Manufacturer: Grotek

Grotek Carbo Max 300 g (GTCM60100) During photosynthesis plants naturally produce their own energy source in the form of carbohydrates. Carbohydrates are used to drive many important functions within a plant. These functions can make the production of energy a limiting factor within plants. Carbo-Max[®] is a source of simple sugars that are water soluble and can be accessed by plants to use in their development. Directions for Use: Mix 1g of Carbo-Max into 4L (1g/1 gal) of water (soil or soilless). Use throughout the blooming cycle. Reapply each time the water is changed in the reservoir.

Manufacturer's Product Information

MSRP each \$20.71

UPC670829812308

Dimensions 2.8 x 3.1 x 2.8

Case Weight 5

Case Quantity 6

Price: \$15.45
