Model: eco-2893

Clearax - Qt (12/cs)

Manufacturer: Botanicare

Clearax - Qt (12/cs) (eco-2893) Clearax - Salt Leaching Solution 1 qt

The #1 salt leaching solution in North America. A common cause of crop failure can be traced to the buildup of nutrient salt deposits in soils or soilless grow media. High salt concentrations in the soil solution cause a shrinkage of plant cell protoplasm away from the cell wall as a result of osmosis. This condition, known as plasmolysis, can eventually lead to irreversible wilting.

Clearax™

Clearax™ is a salt leaching solution. It will correct salt toxicity and nutrient lockout. The plants will then be able to uptake nutrients more readily. Plants will benefit by flushing out the build up of salts.

SKU: BCCSLSQT (previously AACSLST)

Weight: 2.3 lbs.

Package Dimensions: 5.3L x 2.3W x 7.3H

Suggested Retail: \$14.50

Manufacturer's Product Information

MSRP \$14.5

Price: \$8.25
