Clearex - Salt Leaching Solution 1 qt

Manufacturer: Botanicare

Botanicare Clearex - Salt Leaching Solution 1 qt (BCCSLSQT) Clearex is the #1 salt leaching solution in North America. A common cause of crop failure can be traced to the buildup of nutrient salt deposits in soils or soilless grow media. High salt concentrations in the soil solution cause a shrinkage of plant cell protoplasm away from the cell wall as a result of osmosis. This condition, known as plasmolysis, can eventually lead to irreversible wilting. Implement Clearex into your plant protection process and see the benefits grow before your eyes.
