Clonex Rooting Gel, 250 mL

Model: hf-HDCLO250ML

Clonex Rooting Gel, 250 mL

Manufacturer: HydroDynamics International

Clonex® Rooting Gel is a high performance, water-based, rooting compound developed by Growth Technology™ Ltd. It is a tenacious gel which will remain in contact around the stem, sealing the cut tissue and supplying the hormones needed to promote root cell development and vitamins to protect the delicate new root tissue. Clonex® is EPA registered and approved for use on all plants, including food crops.

Price: \$32.67
