Co2Boost PVC Pipe Bucket & Pump Insert

Model: PVC-Pipe

Co2Boost PVC Pipe Bucket & Pump Insert

Manufacturer: CO2 Boost

Co2Boost Pipe for Bucket & Pump
JUST THE PIPE

MSRP: \$2.00

Its time to take your indoor gardening to the next level with Co2Boost. Just plug in our Co2Boost pump and watch as your plants health and size increase daily! If used properly, Co2Boost provides your plants with Co2 for a full 90 days (we sell the Replacement buckets).

Odorless
Lightweight
All-Natural
Easy to use
Organic
Cost-effective
No added heat

Plug the pump into a timer so as to run only while lights are on (plants only use CO2 during photosynthesis). The pump has high and low settings -- on high the bucket may last only 70 days. Place the output tube directly over plant or behind a circulation fan. Seal the environment for maximum effect. 25 ft and 50 ft Spray Kits sold separately for multiple plants and unsealed grow environments.

Ships from manufacturer.

Price: \$1.81
